

Research has demonstrated that positive teaching and learning conditions are important influences on student success and teacher retention. Colorado policymakers and education stakeholders want to gather information about these conditions from those who know them best - teachers and administrators from across the state. This survey will provide you, your school, your district, and the state with information you can use to guide school improvement conversations and planning. Your perceptions matter, so TELL us about your school.

Please know that your participation is voluntary and your anonymity is guaranteed.

No one will be able to view individual responses to the questions. Reports on the results will NOT include data that could identify individuals. The responses of administrators will NOT be reported separately at the school or district level. You are being asked optional demographic information ONLY to learn whether educators with differing experiences and backgrounds look at teaching and learning conditions differently across all of Colorado.

## **Access Code**

You have been assigned an anonymous access code to ensure that we can identify the school in which you work and that the survey is taken only once by each respondent. The code can only be used to identify a school, and NOT an individual. If it makes you more comfortable, feel free to trade codes with a colleague within your same school. The survey cannot be saved, and once you submit your responses, you will not be able to use your code again to access them. Do not begin the survey unless you have at least 20 minutes of uninterrupted time. Your participation in the survey is completely voluntary. After completing the first item, you may skip over any other question you do not wish to answer. If you have questions, problems, or need any assistance, please email us at [helpdesk@tellcolorado.org](mailto:helpdesk@tellcolorado.org).
